

Boss Gloss

Protects against discoloration and cracking

Contains no alcohol or solvents

Keeps your car looking like new

Protects, cleans, and brilliantly shines plastic, rubber, and vinyl surfaces. Filters UV light to help block sun damage and extend life of materials. For dashboards, vinyl seats, door panels, consoles, tires, bumpers, vinyl tops, and door moldings.

Directions: Shake well, pour into a clean cloth and apply by hand. Spread evenly and wipe away excess. One treatment will last for months. ATTENTION: Use only as directed. Not for use on leather, floors, vehicle controls (pedals, grips, steering wheels), beach or cycle seats, cycle tires, brake drums or other surfaces where a slippery finish could be hazardous. Do not use on or near clear plastic or plexiglass surfaces, glass (may cause smearing), fabric, woven materials, or paint.

Keep out of reach of children. Contains no phosphorus. Satisfaction guaranteed. Boss Gloss will help protect materials in good condition but is not restorative in any way.
